INDUSTRIAL FLOORING SOLUTIONS

A Message from our President

Tom Sullivan

MTK would like to partner with you to evaluate and understand the perimeters of your project. Installing a floor is sometimes the easiest part of the process. Setting the floor system up for success is key. There are many factors that come into play before choosing the right application. We have over 20 years of experience in the industry, and we are constantly continuing education on the latest prep equipment, concrete testing equipment, moisture vapor systems and the most up to date products and application methods.

From exhausting fumes to controlling silica dust, we have worked in the most sensitive environments. We have experience working in variety of facilities including everything from a Level 4 Bio Safety Lab to a Showroom for high end cars. Every job is equally important and will receive the same due diligence Whether we use the best product or worst product, the result can be the same without the proper testing, prep and understanding of the environment in which it will be used.

INDUSTRY FLOORING SOLUTIONS

MEDICAL FACILITIES

INDUSTRIAL FACILITIES

PHARMACEUTICAL FACILITIES

Healthcare Facilities require a flooring system that is cost effective, anti-microbial and easy to maintain.

Industrial & Manufacturing facilities demand a highly durable slip resistant flooring surface designed to withstand daily abuse.

Resinous Flooring Systems are well suited for Pharmaceutical Facilities as they provide a durable slip resistant surface and is resilient to harsh environments.

IDEAL FLOORING SOLUTIONS

- Cost Effective
- Extremely Durable
- Reduced Downtime
- Easy to Maintain

SILIKAL FACTORY TRAINED & CERTIFIED

MTK Resinous Flooring is factory trained and certified by Silikal, one of the World's foremost leaders in the Resinous Flooring Industry. Silikal seamless flooring products offer an ideal solution for commercial and industrial floors due to their extreme durability and 100% porous free surface.

We are the preferred Silikal Resinous Flooring Contractor in the North Texas and Oklahoma Market Area.
